PROJECTS

Web App Cost Estimator

See www.chadc.io for link

Technology used: ReactJS with hooks, Ruby on Rails, CSS

Developed the ability to choose multiple features across multiple platforms while estimating the cost of each feature selected.

Fitness Tracker

See www.chadc.io for link

Technology used: ReactJS with hooks, Ruby on Rails

Developing a workout and personal fitness tracker for a small personal training gym. The trainer decides the workout each morning and each user will have access to the workout, and be able to log their weights and repetitions. Currently testing with select members.

Personal Portfolio

www.chadc.io

Technology used: HTML, CSS, JavaScript

Designed and created a personal portfolio page without the use of any frameworks. See all my best work with varying technologies showcased here.

EDUCATION

University of Utah Professional Education, SLC, UT

Web Development Certificate

May 2019 - July 2019

Intense and immersive 12-week program focusing on all the fundamentals needed to become a full stack developer. Completed multiple solo and group full stack applications throughout the cohort.

Northland Community and Technical College

Aviation Maintenance Technology

August 2004 - May 2006

A Challenging two-year program where attendance and quick learning were keys to success. Earned an FAA issued Airframe and Powerplant license allowing me to maintain any US registered aircraft.

OBJECTIVE

Seeking an entry-level software engineer position where I can contribute my dedication, attention to detail and motivation to the team. My new-found skill of coding and skills from my previous career of helicopter maintenance have given me the knowledge to excel.

TECHNICAL SKILLS

Web Tech & Frameworks:

Ruby on Rails, ReactJS,
GraphQL

Languages:

JavaScript(ES6), Ruby, HTML5,
SQL, CSS3

SKILLS

Problem Solver
Team Player
Fast learner
Passionate about code

OTHER PROFESSIONAL EXPERIENCE

Helicopter maintenance technician for 12 years performing maintenance to maximize availability. Performed maintenance in a variety of conditions including leading teams of mechanics, and working remotely with few resources available.
